Problem 1

“Robert Dennis formed a corporation to provide concrete construction work. His jobs typically involve building parking lots, drives, and foundations. Robert provided the following information about transactions occurring during the first month of operation. Evaluate the transactions and prepare journal entries for this activity.

- Jan. 2, 20X5 Robert Dennis invested \$20,000 cash in the capital stock of the newly formed corporation.
- Jan. 4, 20X5 Purchased equipment on account for \$15,000.
- Jan. 12, 20X5 Received \$30,000 from customers for services rendered.
- Jan. 15, 20X5 Received a bill for construction supplies used in the amount of \$4,000.
- Jan. 18, 20X5 Provided \$6,400 of services on account.
- Jan. 20, 20X5 Paid employees \$4,600 for wages earned.
- Jan. 22, 20X5 Collected 60% of the amount due for the work provided on January 18.
- Jan. 23, 20X5 Paid 40% of the amount due on the equipment purchased on January 4.
- Jan. 25, 20X5 Purchased (and immediately used) construction supplies for cash in the amount of \$1200.
- Jan. 31, 20X5 The company paid Robert Dennis a \$3,000 dividend.

	Accounts Receivable		3,840
	<i>Collected 60% of the amount due from the transaction of Jan. 18 ($\\$6,400 \times 60\% = \\$3,840$)</i>		
1-23-X5	Accounts Payable	6,000	
	Cash		6,000
	<i>Paid 40% of the amount due for the transaction of Jan. 4 ($\\$15,000 \times 40\% = \\$6,000$)</i>		

1-25-X5	Supplies Expense	1,200	
	Cash		1,200
	<i>Paid for supplies used</i>		
1-31-X5	Dividends	3,000	
	Cash		3,000
	<i>Paid dividends to Robert Dennis</i>		

Problem 2

Anthony Moore recently formed an information technology services and consulting firm in England. He was very busy during the first month and has not yet had an opportunity to install his computerized accounting package. But, he did understand the need to keep track of all transactions as they occurred. Following is a manual journal that he maintained for transactions occurring during January. All amounts are in the British Pound.

Anthony has requested that you prepare a ledger of the company's accounts, and post these transactions to determine the balance of each account. He needs this data in order to begin the process of transitioning to his new computerized accounting system.

Problem 3

The CEO of newly formed TrueTarget printed a copy of the company's general ledger prior to a recent plane flight. She settled into seat 5A next to where you were sitting. Once airborne, she removed the printed "GL" from her brief case and began examining the report. Unfortunately, she realized that her printer had run out of ink on the very last page. She is frustrated because she is not able to determine the company's exact profitability to date, and is on her way to a shareholder meeting where she is to issue a report on the company's progress. She happened to note that you were studying an accounting book, and asked if you might help her.

Prepare a trial balance from the general ledger, determine the missing amount for salaries expense, and determine the company's profit for its first month.

Worksheet 3

	Debits	Credits
Cash	\$ 657,000	
Accounts receivable		
Land		
Salaries payable		
Capital stock		
Revenues		
Supplies expense		
Utilities expense		
Salaries expense		
	\$ 657,000	\$ -
	\$ 657,000	\$ -

Solution 3

	Debits	Credits
Cash	\$ 657,000	
Accounts receivable	45,000	
Land	225,000	
Salaries payable		\$ 54,000
Capital stock		750,000
Revenues		243,000
Supplies expense	9,000	
Utilities expense	12,000	
Salaries expense	99,000	
	\$ 1,047,000	\$ 1,047,000
	\$ 1,047,000	\$ 1,047,000

The total salaries expense is \$99,000 – the amount necessary to bring the trial balance into balance. TrueTarget was profitable, because revenues (\$243,000) exceeded expenses (\$9,000 + \$12,000 + \$99,000 = \$40,000).

Problem 4

The following narratives describe transactions impacting cash, accounts receivable, accounts payable, revenues, and selected expense accounts. Use T-accounts to analyze this activity and determine the ending balances for accounts receivable and accounts payable. At the beginning of the period, accounts receivable totaled \$108,600, while accounts payable totaled \$62,550. The company started the period with \$170,000 in cash.

Transaction #1	Services were provided to customers for cash in the amount of \$30,460.
Transaction #2	Supplies were purchased and used. This purchase occurred on account, in the amount of \$4,800.
Transaction #3	Collections of outstanding receivables occurred in the amount of \$38,820.
Transaction #4	Utilities costs in the amount of \$1,526 were incurred and paid in cash.
Transaction #5	Payments on outstanding accounts payable were made for \$47,800.
Transaction #6	Services were provided to customers on account in the amount of \$97,308.

"I studied English for 16 years but...
...I finally learned to speak it in just six lessons"

Problem 5

Monte Ishiola distributes electronic parts. Most transactions with customers are immediately paid with cash or check. But, Monte has five major customers that have established accounts. These approved customers routinely buy on credit. The terms of the credit agreement provide that payment must occur within 30 days, and each customer has a maximum credit limit of \$30,000.

Following is information for May regarding each of the credit customers:

Customer #1	Beginning balance, \$4,209. Purchases on account on May 5, \$21,711. Payment on account on May 17, \$4,209.
Customer #2	Beginning balance, \$15,825. Purchase on account on May 15, \$6,825. Payment on account on May 26, \$12,825.
Customer #3	Beginning balance, \$0. Purchase on account on May 9, \$28,650.
Customer #4	Beginning balance, \$22,671. Purchase on account on May 7, \$6,300. Purchase on account on May 22, \$28,332. Payment on account on May 11, \$22,671.
Customer #5	Beginning balance, \$8,970. Payment on account on May 18, \$8,970.

- Prepare a subsidiary accounts receivable ledger account for each of Narayan's customers.
- Prepare the general ledger Accounts Receivable "control" account. Be sure the total in this account reconciles to the sum of the individual balances in the subsidiary ledgers.
- What is the purpose of a subsidiary ledger? What other control accounts might be supported by subsidiary ledgers?
- Review Monte's subsidiary ledgers and identify which customer should be put on credit watch for being delinquent, and which customer has exceeded their credit limit.

Worksheet 5

- Below are the subsidiary ledgers for each customer (some data is provided):

ACCOUNTS RECEIVABLE				Customer #1
Date	Description	Debit	Credit	Balance
May 1	Balance forward	4,209	-	4,209
May 5	Purchase – Journal page X	21,711	-	25,920
May 17	Payment – Journal page X	-	4,209	21,711

May 15	Purchase – Journal page X	6,825	-	115,161
May 17	Payment – Journal page X	-	4,209	88,281
May 18	Payment – Journal page X	-	8,970	79,311
May 22	Purchase – Journal page X	28,332	-	107,643
May 26	Payment – Journal page X	-	12,825	94,818

The Accounts Receivable general ledger account balance of \$94,818 is in agreement with the sum of the individual subsidiary accounts ($\$21,711 + \$9,825 + \$28,650 + \$34,632 = \$94,818$). This is an important reconciliation that should occur on a regular basis. Modern computer systems, including data base driven processes, have greatly reduced the frustration of maintaining subsidiary accounts that synchronize with control accounts.

- c) Subsidiary ledgers provide detailed information about the transactions with specific customers, vendors, and so forth. They enable one to know exactly what comprises a general ledger account balance. This information is very useful for many purposes, including preparing monthly billing statements for specific customers. Subsidiary ledgers might also be maintained for accounts payable, cash (if multiple bank accounts are in use), property assets (to track individual items of equipment in use by the business), capital stock (to track ownership of individual shareholders), and the like.
- d) Customer #2 is delinquent. This customer owed \$15,825 at the beginning of May, but only paid \$12,825 during the month. A portion of the beginning balance has been outstanding for more than the agreed 30-day period. Customer #4's balance exceeds the \$30,000 credit limit.

DON'T EAT YELLOW SNOW

What will your advice be?

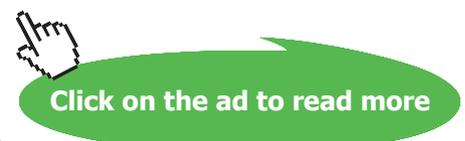

Some advice just states the obvious. But to give the kind of advice that's going to make a real difference to your clients you've got to listen critically, dig beneath the surface, challenge assumptions and be credible and confident enough to make suggestions right from day one. At Grant Thornton you've got to be ready to kick start a career right at the heart of business.

Sound like you? Here's our advice: visit GrantThornton.ca/careers/students

Problem 6

June 2	Sudipta Gumm invested \$50,000 cash in the capital stock of the newly formed corporation.
June 3	Hired an administrative assistant, to be paid \$6,000 per month. Leased office space at the rate of \$2,000 per month. Signed a contract with Bangalore to deliver consulting services valued at \$15,000.
June 8	Purchased (and immediately used) office supplies on account for \$1,500.
June 9	Received \$5,000 from Bangalore for work performed to date.
June 15	Paid \$2,400 for travel costs associated with consultation work.
June 16	Provided services on account to Amalga for \$6,000.
June 17	Paid \$3,000 to administrative assistant for salary.
June 23	Billed Wheel for \$8,000 consulting engagement performed.
June 25	The company paid Sudipta Gumm a \$2,000 dividend.
June 26	Collected 50% of the amount due for the billing on June 23.
June 27	Purchased computer furniture for \$8,000, paying \$2,000 down.
June 27	Paid \$1,500 on the open account relating to the June 8 purchase.
June 28	Completed the Bangalore job and billed the remaining amount.
June 30	Paid \$3,000 to administrative assistant for salary.
June 30	Paid rent for June, \$2,000.

Pryor consulting uses the following accounts:

Cash
Accounts Receivable
Equipment
Accounts Payable
Capital Stock
Revenues
Salary Expense
Rent Expense
Travel Expense
Supplies Expense
Dividends

- Journalize the listed transactions.
- Post the transactions to the appropriate general ledger accounts.
- Prepare a trial balance as of June 30.

What if you could build your future and create the future?

One generation's transformation is the next's status quo. In the near future, people may soon think it's strange that devices ever had to be "plugged in." To obtain that status, there needs to be "The Shift".

Brain power

By 2020, wind could provide one-tenth of our planet's electricity needs. Already today, SKF's innovative know-how is crucial to running a large proportion of the world's wind turbines.

Up to 25 % of the generating costs relate to maintenance. These can be reduced dramatically thanks to our systems for on-line condition monitoring and automatic lubrication. We help make it more economical to create cleaner, cheaper energy out of thin air.

By sharing our experience, expertise, and creativity, industries can boost performance beyond expectations. Therefore we need the best employees who can meet this challenge!

SUBSCR**IBE** - to the future

Problem 8

Mont Blanc Corporation is a small business operating in a state where a tax on income is contrary to the state's constitution. In an effort to raise revenue, the state has imposed a tax on business receipts for services provided to customers (total revenues, whether collected during the period or not). The tax is equal to 1% of revenues in excess of \$300,000.

Mont Blanc prepared its state tax return by adding up the total deposits to the company's bank account during the year. Total deposits were \$1,240,000, and the company paid taxes of \$9,400 ($(\$1,240,000 - \$300,000) \times 1\%$).

Assume you are an auditor for the state, and Mont Blanc has been randomly selected for a routine review. You immediately find that the company does not maintain a typical journal/ledger system, and is fundamentally clueless about proper accounting procedures.

You have discovered the following limited information as part of your examination:

- Fact 1 Total deposits included \$450,000 that resulted from issuing shares to stockholders.
- Fact 2 The total deposits included \$75,000 of interest income on investments.
- Fact 3 The total deposits included \$2,700 that was the result of a bank error. The bank subsequently discovered the error, and removed the funds from Moncrief's account.
- Fact 4 Mont Blanc provides some services for cash, and portions of that money are never deposited to a bank. The company maintains a cash receipts book and you have determined that \$74,100 was collected from customers but never deposited.
- Fact 5 Bank deposits during the period included a \$3,600 refund check from a vendor relating to an overpayment for supplies.
- Fact 6 The company deposits included \$42,000 that was the result of a refund of an overpayment of federal income taxes.
- Fact 7 During the year, Mont Blanc collected a customer deposit toward a future contract. This \$30,000 advance was deposited and subsequently refunded when both parties mutually agreed to cancel the contract.
- Fact 8 Mont Blanc has many customers for which services are provided on account. As of the beginning of the year, the balance due from customers was \$390,000. By the end of the year, accounts receivable had grown to \$1,170,000. Mont Blanc has never experienced a problem with non-payment, and all customers pay their accounts in full within 90 days of a transaction.

- a) Prepare an analysis to determine the correct amount of revenue for purposes of computing the tax.
- b) Prepare journal entries for the “revenue” cycle, as well as the other cash items described.
- c) Prepare a general ledger account supporting the revenue calculation.

REVENUES				
Date	Description	Debit	Credit	Balance
	Balance forward	-	-	-
		-	-	-
		-	-	-
		-	-	-

Solution 8 (a)

- a) The following schedule reveals the corrected revenue calculations. Mont Blanc owes an additional \$2,508 in gross receipts tax $((\$3,970,800 - \$3,720,000) \times 1\%)$.

Gross receipts as reported	\$	3,720,000
Fact 1: Remove stockholder investments		(450,000)
Fact 2: Remove interest income		(75,000)
Fact 3: Remove deposit error		(2,700)
Fact 4: Add cash revenues never deposited		74,100
Fact 5: Remove refund included in revenues		(3,600)
Fact 6: Remove tax refund deposit		(42,000)
Fact 7: Remove customer deposit refunded		(30,000)
Fact 8: Subtract collections of beginning receivables		(390,000)
Fact 8: Add services provided on account not yet collected		1,170,000
Corrected gross receipts	\$	3,970,800

b)

GENERAL JOURNAL			
Date	Accounts	Debit	Credit
Fact 1	Cash	450,000	
	Capital Stock		450,000
	<i>Record stockholder investment</i>		
Fact 2	Cash	75,000	
	Interest Revenue		75,000
	<i>Record interest earnings</i>		
Fact 3	No entry		
	<i>Bank error only</i>
